

# Fair Value Gap Master class

Sept 8th session

L> 3 candle pattern  
when the first candle's  
high does not overlap the  
third candle's low or  
Vice Versa

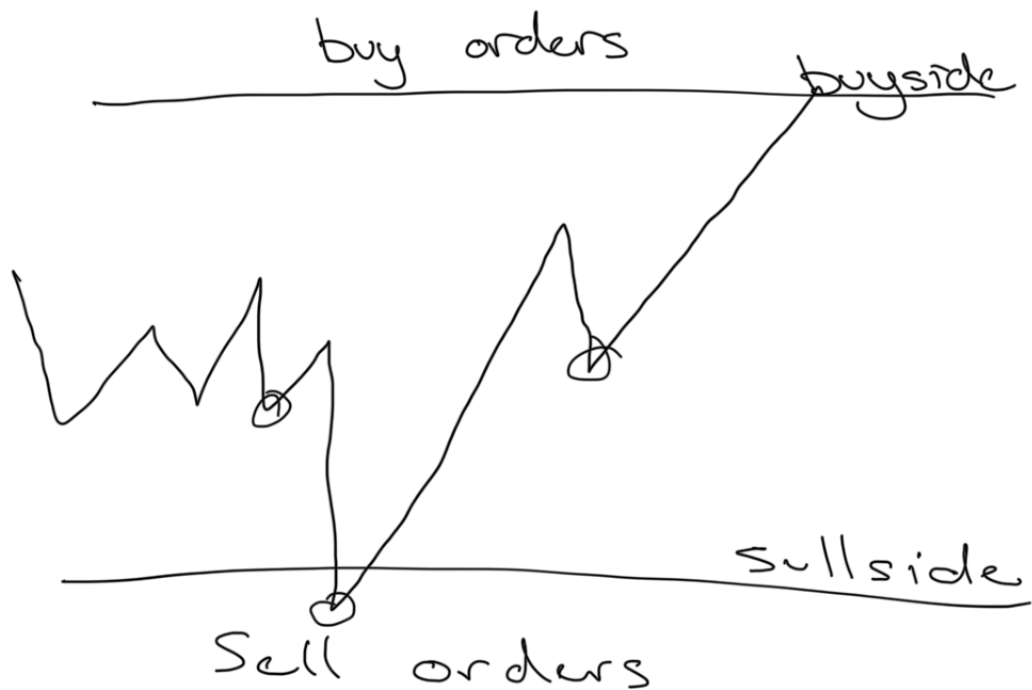

## FAIR VALUE GAP

- essentially ~~when~~ <sup>middle</sup> ~~large~~ candle  
most likely means that not all  
orders were filled, meaning  
there are open orders in that  
gap.

important note: market targets

# liquidity and fair value gaps

1. identify liquidity and patterns, above example we have an inverse head and shoulders market structure shift.

2. next find the fair value gap for entry

market structure shift  
identify liquidity  
enter on fair value gap.
