

Trading Time

Daily 1min

Sept 11 session

↳ think about when the next daily candle is going to go

↳ if you trade 1m $\rightarrow$ 3m
this doesn't really apply
because you will find opportunity
within the day

↳ best buy $\Rightarrow$ below open

↳ best sell $\Rightarrow$ above open.

when you take a 1-5min entry
you only have to be right for
then next 15-60min

- not 4 hours or the whole day.

↳ bias essentially breaks down

to you analyzing structure to
"predict" where the market
is going

↳ have to leverage multiple
times to see different
liquidity pools + FVGs
and can't just rely of daily
wicks.
